Project total cost	Overall funding assigned to PFRI
938.570,00€	22.900,00 €

SUMMARY

This project is entirely focused on the internal waterway sector, as one of the modalities in the entire transport chain. The project will develop curricula and teaching materials as a quality assurance and quality control system (QA / QC) for inland waterway crews.

One of the key elements of the 2017/2397 directive is the fact that crew members on points on inland waterways must have certain abilities.
