PROJECT ACRONYM AND TITLE: FRAMESPORT – Framework Initiative Fostering the Sustainable Development of Adriatic Small Ports

FUNDING PROGRAMME: INTERREG VA – Italy – Croatia - CBC Program

PERSON RESPONSIBLE: Tanja Poletan Jugović

FINANCIAL DATA

Project total cost (Connected Traffic)	Overall funding assigned to PFRI
52.827.363,46 HRK	1.332.000,00 HRK

SUMMARY

The FRAMESPORT project will develop a coordinated initiative that supports the integrated and sustainable development of small ports, enabling them to be proactive socio-economic drivers of development on both sides of the Adriatic. Such a strategic goal requires a multifaceted approach, which includes the implementation of specific pilot activities, as well as the identification of priority topics which will be promoted in the strategic documents. Priorities will be individualized using a *bottom-up* approach through the involvement of local and national stakeholders from the initial phase of the project. Project partners selected to ensure a broad territorial approach will address planning and management issues, implementation of business models, improvement of training and competence development, as well as development of ICT tools and services, thus supporting the effective development of small ports throughout the cross-border area. Furthermore, a customized ICT platform will collect and systematize relevant key data on small ports that will serve as a starting point for further development.

Start date	End date
01.01.2020.	30.06.2023.

PARTNERSHIP

Br.	Partner organization	Country	Role
1.	Consortium For The Coordination Of Research Activities Concerning The Venice Lagoon System (Corila)	Italy	Lead Partner
