

University of Rijeka, Faculty of Maritime studies

PROJECT ACRONYM AND TITLE: Skills beyond the Seas (SKILLS)

FUNDING PROGRAMME: Erasmus+

PERSON RESPONSIBLE: dr.sc. Đani Mohović

FINANCIAL DATA

Project total cost	Overall funding assigned to PFRI
286.500,00 €	29.820,00 €

SUMMARY

The goal of the Skills beyond the Seas project is to develop two parallel tools - the skill tool and scanner of informal skills. Pupils and seafarers will be introduced to their formal and informal skills through which they will be able to propose choice in their future career. The scanner will allow you to evaluate the basic skills and key capabilities of the user to complete your personal profile in terms of transparency and recognition of your qualifications.

The main activities of the project are:

- Analyze and identify the skills needed in maritime jobs using ECVET principles of knowledge, skills and competencies
- Identify jobs on the coasts where transferable skills are applied (jobs in maritime affairs offices and jobs that are more vague as job of managers and geometers)
- The development of tool skills that enable target groups to choose their career
- Development of a scanner that identifies and evaluates informal skills by users in order to expand personal skills

Start date	End date
1.12.2018.	31.05.2021.

PARTNERSHIP
